

# André Viallon

Frontend Engineer  
Kolding, Denmark

## experience

### Software Engineer - Schneider Electric

January 2019 - Present

I worked on the user interface and experience of IT Advisor, a web application for managing and modeling data centers. Designed low and high fidelity mockups and prototypes in Figma.

I worked on the Frontend with:

- Angular
- NX for monorepo
- NGXS for state management
- Storybook for creating and testing components in isolation
- Jest for testing states and components
- Tailwind & Material Design for styling

### UX & Frontend Dev. Intern - Schneider Electric

August 2018 - October 2018

### Frontend Dev. Intern - ScanCommerce

January 2016 - April 2016
